## Forum Layout

Posted by gabeech - 2008/06/29 02:40

---

Hi there,

Don't like to moan, but...

I find that having only 5 Topics per page is a bit of a chore to browse.

Example:

50 Topics would be easier to glance over and select Titles of interest if each page had, say, 25 Topics.

50 Topics over 2 pages, as apposed to, 50 Topics over 10 pages

:woohoo: Thank you very much:woohoo:

I felt a little shy complaining within my first couple of posts:blush:  
I held back on another 'moan', also relating to the forum layout...  
You've fixed that too...

:woohoo: Thanks again!!! :woohoo:

p.s.

Not only have Nicky and you spurred me on, to pick up my MCSE study material...  
Fixing the forum layout has forced me to buy a new Mighty Mouse, mine would not scroll down.:whistle:
